Coding Challenge Day 2 (Week 4)
 ## Problem Statement

StudentManagment Sprint 2

Problem Statement

Spring Flowers school wants to manage their students online:-

User Stories :-

1. As a student. I should be able to see login and Register page as a first page
2. As a student. I should be able to enter my user name and password and click on the login button
3. As a student. I should be able to see the Welcome page only if the student is valid.
4. As a student. I should be able to see the Monthly Activity Page after clicking the Monthly Chart button.
5. As a Student. I should be able to see the subject wise monthly activities on the Monthly activities page. Subject should be selected from the drop box

Instructions:-

1. Please use sprint1 as a boilerplate of sprint 2
2. Please use HTML 5 and CSS 3 concepts
3. Please use arrays to store Monthly Activities Example:-
   ```
   [{ id: 1,
       activity:  "create project file which contains tables between 12 to 19",
       subject : " Maths"
   }]
   ```
4. Try to make a proper application
5. Deploy the application on http server
6. Please make sure the application should Responsive.
7. Use JavaScript for Onclick activities
